The Lakes Course Par 72 7101 yards

An abundance of water inspired the moniker for this course. Water comes into play on virtually every hole. This 18-hole course measures over 7,100 yards and is more like the traditional Florida course with "Champion" bermuda greens and generous driving areas.

Both nines of The Lakes start out with unique par-5's that challenge golfers to use their creativity to make a sub-par score. As you play these outstanding layouts, you soon understand why The Eagles Golf Club of Tampa Bay has a hard-won reputation for well-conditioned tees, greens, and fairways. Four sets of tees offer golfers a wide choice of challenges. When the St. Petersburg Times canvassed several dozen Tampa Bay golf courses to put together a Tampa Bay "Dream 18," two holes from The Eagles were selected.
