## MOSAIC'S SENIOR VP OF PHOSPHATES BRUCE BODINE HEADLINES PROPELLER CLUB'S ANNUAL STEAK AND CORN DINNER

**TAMPA, Fla., April 16, 2019** – This past Tuesday the Propeller Club - Port of Tampa packed the Tampa Garden Club on Bayshore Boulevard for their annual Steak and Corn dinner, featuring keynote speaker Bruce Bodine. Bodine, a native Floridian, is the Senior Vice President of Phosphates for The Mosaic Company.

“This industry has existed for more than 100 years in Central Florida. Many things have changed over the years but our commitment to this region has not; this is evidenced by our headquarters’ move to Tampa and the public-private partnership for the dredge project with Port Tampa Bay,” said Bruce Bodine. “We know that we have many people counting on us, and we are doing everything we can to meet or exceed their expectations with responsible operations so Florida Phosphate can continue to prosper for generations to come.”

“It was a great night with a beautiful location, fabulous weather and amazing camaraderie. This is one of our signature events where our guests enjoyed sweet corn on the cob, cold beer, wine and sweet tea, before a delicious filet steak dinner,” said Club President Lynne Vadelund. “I always look forward to this event and this year the weather was perfect and the presentation by Bruce Bodine was a highlight of an enjoyable evening. Thanks to our sponsors, Batson-Cook Company & Port Logistics Refrigerated Services, and all the club members and guests who came out.”
